TECHNICAL SKILLS

- **Frontend** : React.Js, Next.Js, Javascript, Typescript, Tailwind CSS, Material UI, Redux, RTK Query, HTML, CSS
- **Backend** : Node.Js, Express.Js, PostgreSQL
- **AI Tools** : Cursor, Claude, Chat GPT, Gemini
- **Soft Skills** : Leadership, Communication skills, Public Speaking, Time Management

EXPERIENCE

- **Koru UX** **May 2026 - Present**
(4 Months) Pune, Maharashtra
Frontend Developer (Full-time)
 - Built features for **Agent Fabric** UI - a React 19 + TypeScript web app (Vite, Mantine, TanStack Query) for the Agent Fabric platform that lets teams test, qualify, and govern AI agents.
 - Developed **Trust Studio** verification UI for testing AI agents across Identity, Consistency, Boundary, and Evidence "gates" surfacing per-scenario pass/fail results and gate-level qualification status.
- **Quokka Labs** **Sept 2022 - March 2026**
(3.5 years) NOIDA, U.P.
Software Engineer (Frontend Developer, Full-time)
 - Engineered a US-based race registration and results platform **RUNTHEDAY** using **Next.js, React.js, JavaScript, TypeScript, HTML, CSS, Tailwind, Material-UI and Redux**, enabling real-time multi-role interactions.
 - Implemented **WebSocket** for live race result updates and used **Firebase** for secure OTP-based authentication and user onboarding.
 - Developed a cross-platform **Windows/Linux Desktop Application** for **EDIQUE** with **auto-update, auto-start** functionality using **Electron.js, Node.js, React.js, and TypeScript**, enabling accurate logging of power on/off and sleep/wake events in **Electron-store**.
 - Integrated **Websocket** to send minute-wise heartbeat data and instant power-on logs for reliable real-time monitoring.
 - Built **SPORTZENTRIC**, an online sports batch creation-registration platform and its Admin Panel using **React.js**, enabling coaches to manage training batches and athletes to join sessions, with secure onboarding via **Firebase OTP**.
 - Improved UI/UX using **React Styled Components** and **Material-UI**, and optimized data handling with **RTK Query**.
 - Utilized **JavaScript, React.js, React Hook Form, HTML, CSS** for seamless and scalable front-end development.
 - Created, Implemented and updated backend **REST APIs** using **Node.js, Express.js**, and **MongoDB** during critical production support for **RUNTHEDAY**
 - Developed and integrated REST APIs to exchange data between **Drupal** and external services.
 - Maintained **Drupal-based web applications**, working with content types, fields, taxonomies, menus, and user roles to support content-driven workflows.
- **Riviera Home Furnishings** **June 2020 - June 2022**
(2 years) Panipat, Haryana
Maintenance Engineer (Mechanical, Full-time)
 - **Led and supervised** a team of 10+ technicians in production and preventive maintenance operations.
 - Performed **Preventive and Breakdown** maintenance.
 - Cross-functional **Teams Coordination** to analyze failures and implement corrective actions.

PROJECTS

- **Agent Fabric** : It is an enterprise platform for building, governing, and monitoring AI agents across their full lifecycle. A single web app spanning agent configuration, workflow building, governance policies, pre-release testing and certification, and production monitoring.
- **Run The Day (RTD)** : It is a US based platform allows users to create and register for races (marathons) and view live results, supporting multiple roles like Race Directors, Runners, and Volunteers with real-time interactions.
- **Edique** : This project includes a Windows service and desktop app (**windows/linux**) that tracks system activity, sending power logs and timestamps to a server every minute.
- **SportZentric** : Sports platform connecting coaches and players, allowing coaches to create training batches that players can join by paying the coach-set fees.

ACHIEVEMENTS

- **Star Performer of the Month – Quokka Labs (April 2024) :** Recognized for delivering high-impact features on the EDIQUE project under tight deadlines and demonstrating strong ownership and problem-solving skills.

EDUCATION

- | | |
|--|---|
| ● Amity University Online
<i>Master of Business Administration (Dual Specialization)</i> | Noida, U.P., India
<i>July 2025 - July 2027</i> |
| ● Vidya College Engineering
<i>Bachelor of Technology - Mechanical Engineering</i> | Meerut, U.P., India
<i>June 2013 - June 2017</i> |
